INVESTMENT OBJECTIVE

Carmignac Portfolio China New Economy is an equity fund looking to seize investment opportunities arising mainly, but not exclusively, from China's New Economy. The latter offers numerous sustainable growth themes in areas such as healthcare, education, clean energy, technological innovation and "sustainable" consumption, including e-commerce and Internet which benefit from the increasing purchasing power and improving living standards of Chinese households. Stock selection is the Fund's main performance driver and is based on rigorous financial and extra-financial analysis. Its objective is to outperform its reference indicator over at least 5 years. The Fund also looks to minimise its environmental impact by reducing its carbon footprint by 5% annually.
